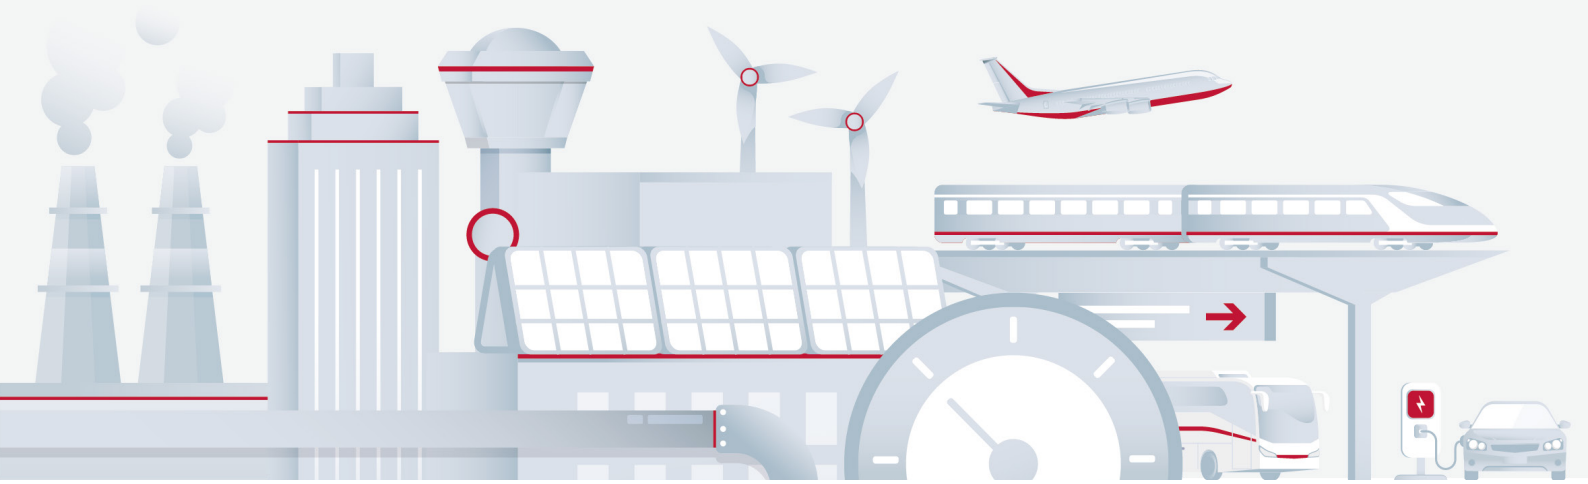
PcVue LET'S ENGINEER



PcVue

OPEN CONNECTIVITY SCADA SOFTWARE PLATFORM

PcVue SIMPLIFIES INDUSTRIAL DIGITAL TRANSFORMATION

PcVue platform is a cyber-secure digital platform designed for monitoring and controlling a diverse range of connected systems and devices. Using the latest software development technologies, it provides a set of features “ready to configure” to allow the system designer to create a personalized end-user application. PcVue platform’s extensive connectivity capabilities allow it to collect large amounts of raw data, process it and distill it into relevant, usable information for optimized decision-making. Finally, through its handy and powerful user interface, PcVue facilitates the operator’s daily activities and reduces the users’ training time, making onboarding and operations more efficient.

PcVue SOFTWARE SCADA PLATFORM

AT A GLANCE

COLLECT & SHARE

OPEN CONNECTIVITY
Connect any systems, collect any data. Hundred built-drivers or standard connectors for an infinite interoperability

ENHANCE

DATA PROCESSING
Take efficient and quick decisions for real time operations with relevant information from raw data

MONITOR & CONTROL

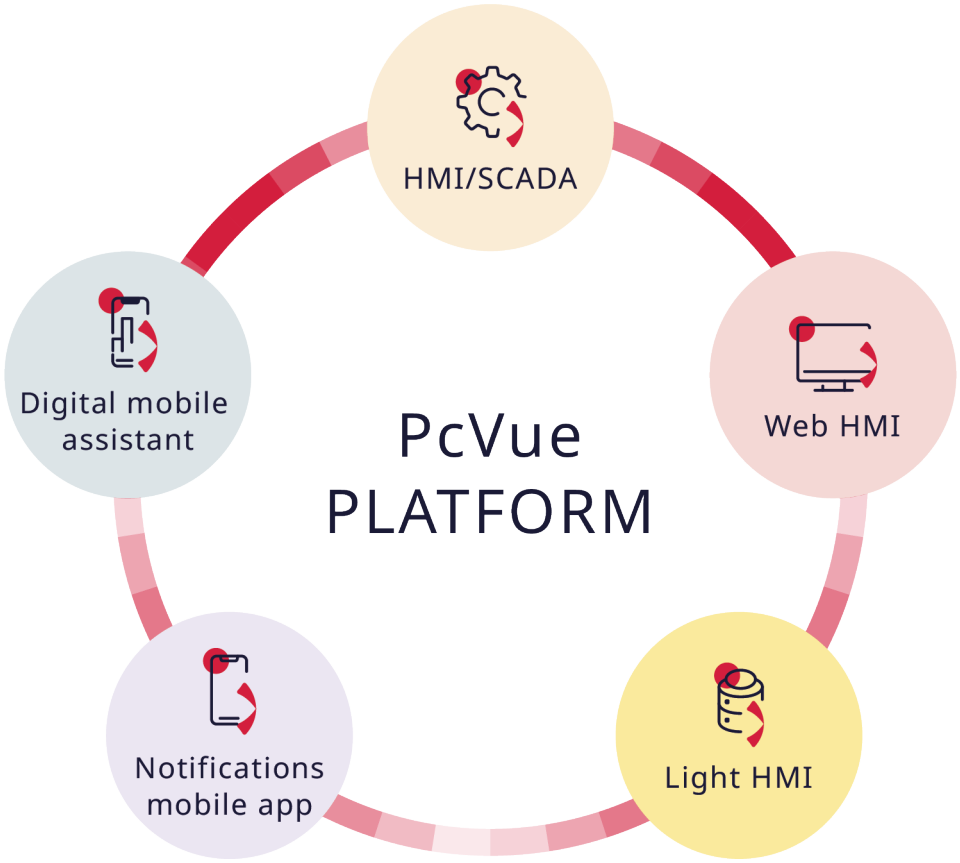
USER INTERFACES
Using the latest UI/UX design technologies, PcVue allows to monitor and control any systems from anywhere

STORE & REPORT

DASHBOARDS & ADVANCED REPORT
Design and publish dynamic database-driven advanced reports

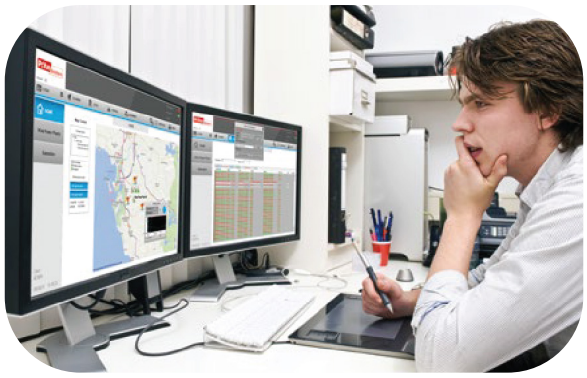
DEPLOY

OPEN ARCHITECTURES
Unlimited deployment possibilities from one station to hundreds, on premises, cloud or mobile



OUR PRODUCTS

Embedding cutting-edge technologies & features



PcVue - HMI/SCADA

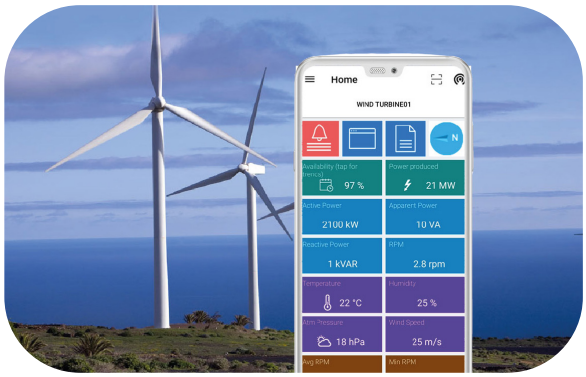
Secure, stable, scalable software platform designed for monitoring and controlling any connected systems and devices.

WebVue - Web HMI

Built-in HTML5 web client providing a user interface to monitor and control your process from any device.

SnapVue - Digital mobile assistant

Situational based mobile solution with geolocation, chatbot,widget and messaging to help field workers in their operations.



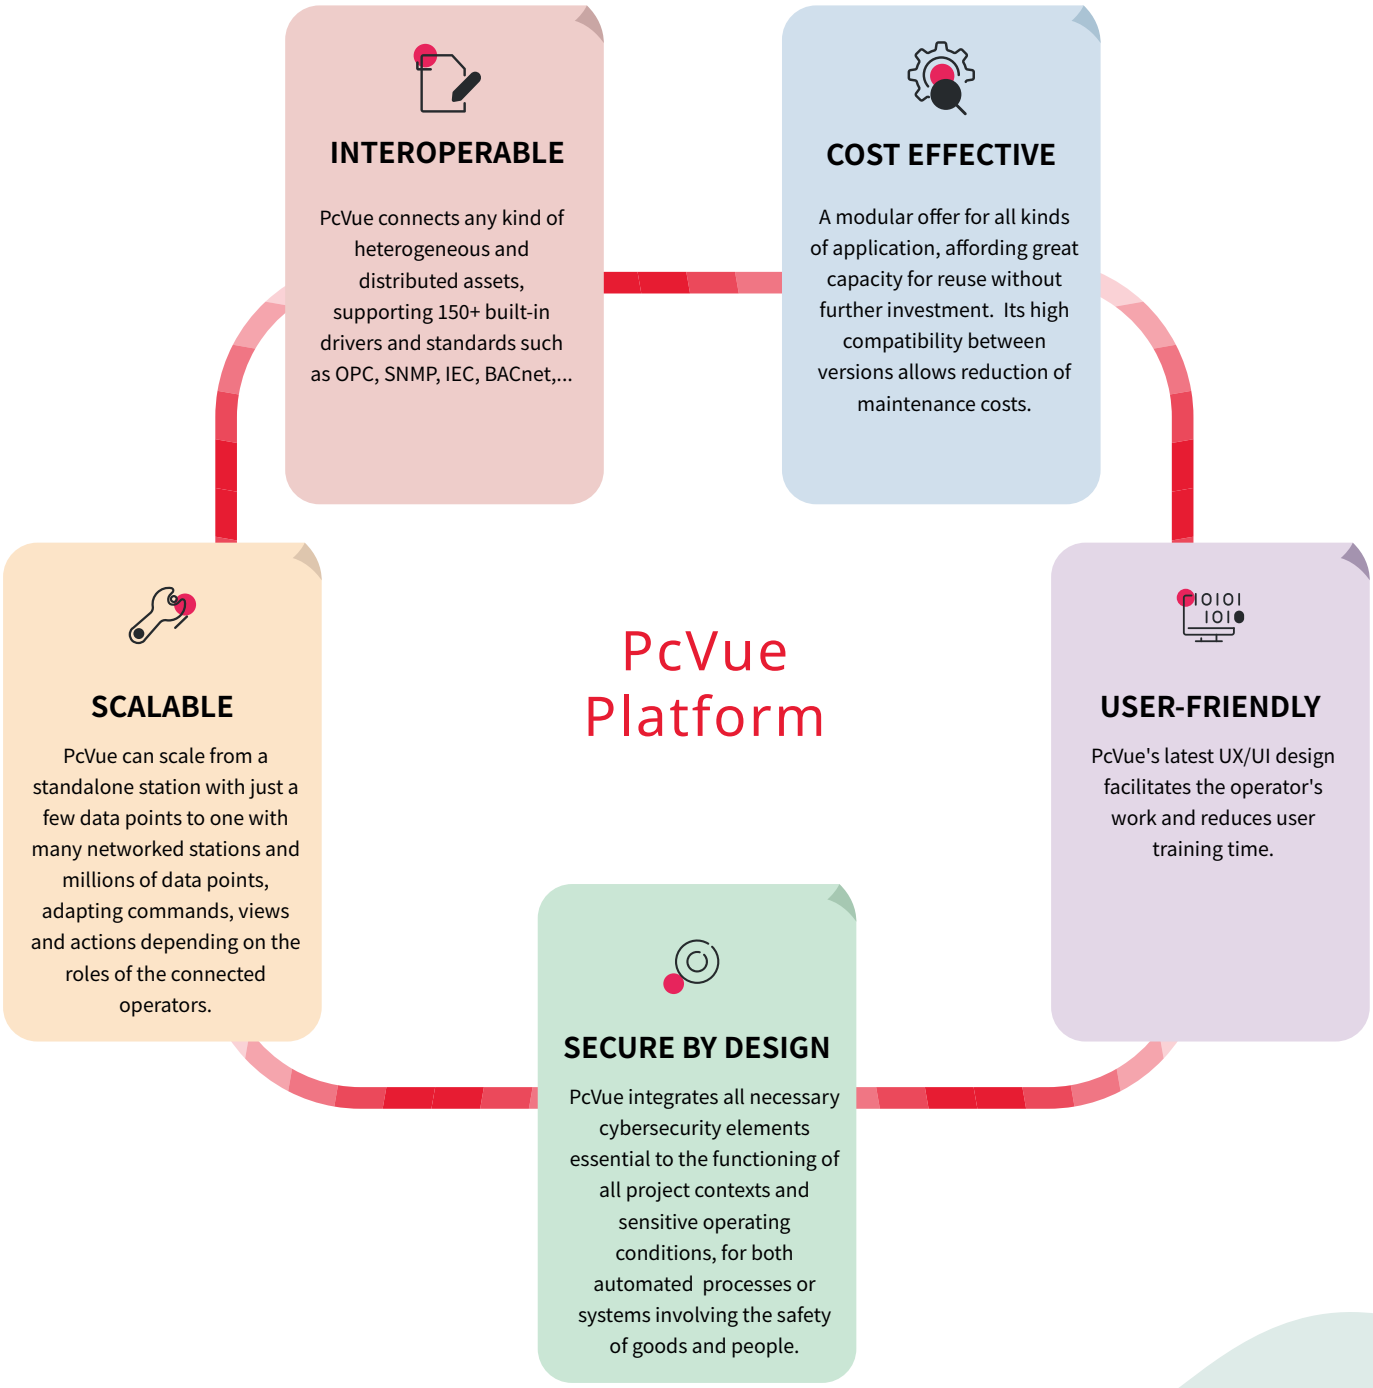
TouchVue - Notifications mobile app

A mobile app to notify mobile users for immediate action

FrontVue - Light HMI

Graphical user interface OPC client that retrieves real-time data from one or more OPC servers for monitoring and control any system

KEY FEATURES FOR SYSTEM INTEGRATORS



OUR SOLUTIONS

Addressing different needs

BY MARKET

- Smart Building
- Power Automation
- EV Charging
- Transportation
- Infrastructure
- Industry
- Water
- Oil & Gas

BY APPLICATION

- HMI/SCADA
- Alarms management
- IoT
- Digital remote assistant
- Cybersecurity
- Database-driven advanced reports

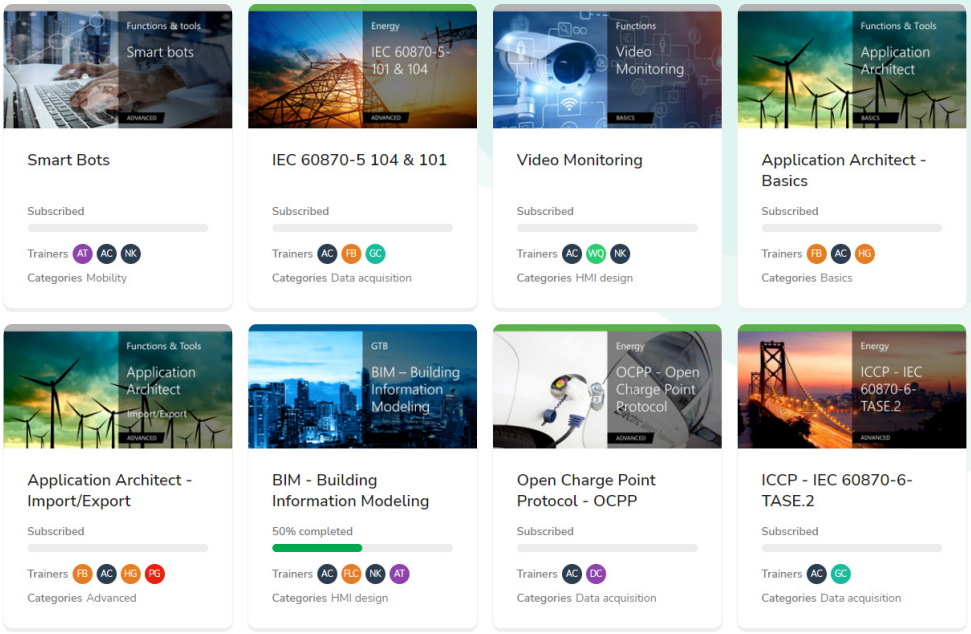
Pcvue ACADEMY

Digitalize your training!

PcVue offers an online Learning Platform for anyone interested in learning how to master our PcVue platform!
With tailored training courses adapting to your progress and needs and a catalogue of trainings for all levels and areas of activity, our PcVue online platform provides significant advantages.



Train at your own pace

Available anytime, anywhere, PcVue Academy lets you decide the right way for you to learn. You can always contact your team mates or our experts if you feel alone!

Get information easily

All of the information is structured in an organized way in the same place, making it accessible to all users. Courses, calendars, multimedia contents, archives and evaluations are accessible in just one click.

Target your vertical with academy paths!

Trainees will have access to a full set of customized PcVue training parts that will be focused on their vertical which guaranties a better efficiency in the development phases.

Keep contact with our training experts thanks to our virtual classroom

Our virtual classroom provides a video conferencing area where trainer and trainees engage with each other and with the education material.

Cost and time effective training

Eliminates the cost and time of travel while optimized the teams schedule.

At PcVue, we make sure that our customers are able to take full advantage of our platform. Our training team is available to answer your questions and help you during the entire life-cycle of your projects

OPEN CONNECTIVITY SCADA SOFTWARE PLATFORM

In business for over 40 years, ARC Informatique is a forward-thinking industrial software editor with 16 offices worldwide. Using the latest technologies, ARC Informatique develops PcVue, a reliable, secure, and robust SCADA platform, dedicated to monitoring and control applications.

With 160+ dynamic team members, we are both physically very close and culturally compatible with our user base, thereby facilitating responsive customer care. Our ISO 9001, 14001 and 27001 certifications ensure quality, sustainability, and security in our development processes from design to delivery.

A CUSTOMER-ORIENTED APPROACH

Listen to and answer our customers develop and adapt our solutions via R&D responsive technical support.
